

MA 30 Mixing amplifiers

TECHNICAL SPECIFICATIONS

MA 30

MA30 mixing amplifier is small and compact: 30 W rated power.

Low and high impedance outputs, line and microphone inputs, tone control, priority microphone input. Excellent device for small size applications. No need of professional installation assistance. Shop, bar or restaurant personnel can manage the installation of these mixing amplifiers by itself.

	MA 30
Output power	30 W
AC power consumption	80 VA
DC power consumption	72 VA
Power supply	230 V/ 50Hz or 12V DC
Outputs	Low impedance output – 4 Ω, 8 Ω (Screw terminal connectors) Hi impedance outputs – 70 V, 100 V (Screw terminal connectors)
Inputs	Microphones: sensitivity -54 dB, impedance 600Ω, connectors - Balanced XLR, Unbalanced Jack AUX 1, AUX 2, AUX 3: sensitivity -10dB, impedance 10 kΩ, connectors - RCA
Frequency response	50 Hz - 15 kHz
THD	Less than 1 % at 1kHz rated power
Signal / noise ratio	86 dB
Tone control	Bass ±10 dB, Treble ±10 dB
Controls	Input level control, tone control, master
Indicators	Power
Dimensions	275 mm x 68 mm x 225 mm
Weight	4,4 kg
Accessories	Special U-bracket
Colour	Black (RAL 9017)
